ENGINEERING TECHNICIAN

The ENGINEERING TECHNICIAN performs a variety of office and field GIS, engineering, public works, and planning work, including asset data management, asset data collection, inspection of existing infrastructure, construction inspection, and assisting staff in other engineering duties.

ESSENTIAL FUNCTIONS INCLUDE:

- Maintain and update asset data and manage the City's geographic information system (GIS)
- Create and maintain maps and AutoCAD drawings, maps, exhibits and engineering plans
- Work with construction companies, performing site visits on development sites and commercial sites, and observe multiple street maintenance projects around the city,
- Prepare pay applications and change orders on variety of projects.
- Perform various project inspections
- Perform a variety of office or administrative office tasks

QUALIFICATIONS & REQUIREMENTS:

Education and Work Experience

- Minimum two-year degree in GIS, geography, construction, engineering technology or related field.
- Strong communications skills in order to effectively interact with staff, professionals, contractors and general public.
- Technical skills to effectively use GIS equipment, personal computers, cell phones, radios, etc., including applicable software, e-mail and internet.
- Valid driver's license with good driving record

SKILLS, KNOWLEDGE AND ABILITIES

Knowledge of geographic information systems including Ersi ArcMap required. Must also possess the ability to establish and maintain effective working relationships with coworkers and the general public, follow routine verbal and written instructions, calculate figures and amounts, express ideas clearly, both verbally and in writing, work both independently and in a team environment.

Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I'm addicted to my seat heaters. Every car I have ever purchased has had them and it has even been a deal breaker for me when shopping for a car if it did not have them. I use my heaters year-round unless it is too warm out. My driver side seat heater just failed on my Cadillac and of course it is 2 months out of factory warranty. They would love to replace it for me at a charge of \$800.00 and that's just not going to happen. I am not ready to purchase a new car, but I want my seat heater to work. Is there anything I can do to get it going again?

Joe in Detroit Lakes Minnesota

Dear Joe,

I too enjoy my heated seats and when they fail, I would never think of spending \$800 just to keep my rear end warm. Good thing that there are alternatives out there. You could check with your local recycled parts place, AKA Salvage Yard, and they may have an entire working seat for you that will match your interior, or you could look into an aftermarket heater. Seat heaters are a great accessory for anyone who has a seat to sit on. Cars, trucks, tractors, they all can be equipped with heaters usually at a much lower price than a replacement factory unit. Check your local car stereo shops or accessory installation dealer to see if they offer them.

Take care, The Motor Medics

Dear Motor Medics,

I had the air conditioning system fail on my Land cruiser two years ago due to a large leak in the rear refrigerant lines that run under the vehicle. Where the lines run, they are susceptible to damage from road debris and those concrete stops they put at the front of parking spaces. You know, the ones with the metal stakes holding them that my teenage daughter thinks is ok to drive over instead of backing up. So, after the cloud of refrigerant smoke cleared, I took it to both the dealer and an independent shop for a repair quote. Both places were over \$1000.00 to replace the lines. They said the lines come as a set and take many hours to replace. Is there anything I can do that won't cost me so much money?

Thanks, Rich in Attica Indiana

Dear Rich,

Ouch! You have a few choices. You can do without air conditioning, you can spend the money for new lines, you could block off the rear lines and just use the front a/c, or you can repair the lines you have. There are a/c line repair kits out in the market that not all shops have but the ones that do will be able to cut out the damaged section and splice in a new one. You can also have a rear delete kit installed. Either one will be a large savings over having the entire line set replaced.

Take care, The Motor Medics

Coming in tomorrow's BRANDON VALLEY Journal

This week, we bring you the top 21 local headlines of 2021 and a report from the first meeting of the new year of the Brandon City Council.

David Owen gave Brandon Valley Area Chamber of Commerce members insight into the 2022 South Dakota Legislative Session at last week's On the Menu event. *Journal* editor Jill Meier was there to bring you his forecast.

We've also got the facts behind the Brandon Area Hockey Association's plan to build an indoor facility in a new location other than at Aspen Park.

Speaking of sports, we've got reports from the Lady Lynx and Lynx boys most recent basketball action and the Brandon Valley wrestling team's rise to the top of the Floyd Farrand Invitational.

A local cornhole enthusiast is making a name for himself in the sport, and guest writer Jana Mackin gives you a glimpse into this backyard game.

Tomorrow's *Brandon Valley Journal* also brings you the story behind Horse Haven Boarding and another installment of our "Fathers & Sons" series.

If you're a subscriber, thanks for reading! If you're not, what are you waiting for? Give us a call at 582-9999 so you can be in the know of everything that's "Coming in Tomorrow's *Brandon Valley Journal*"!
