Hwy. 11 Corridor Study public meeting is Jan. 25

The South Dakota Department of Transportation will host a meeting from 5:30-7 p.m. Tuesday, Jan. 25 at the Holiday Inn Express & Suites in Brandon.

The primary driver for completing the SD 11 corridor study is the need to repair or replace aging pavement on segments of SD 11. SDDOT staff regularly investigates conditions along state highways looking for pavement cracking, chipping/fraying at joints, joints that missing sealing material and rutting in. In the corridor, SDDOT reports segments with each of these conditions, which combine to suggest rehabilitation within the next seven to 10 years.

The purpose of this study is to determine the appropriate typical section and lane configuration to be provided during any reconstruction to accommodate the anticipated traffic growth as development continues in this area.

To learn more about the study, visit sd11corridor-study.com.

Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I purchased a 2007 Honda Odyssey van with 80,000 miles and I thought I got a great deal. The used vehicle inspection only had one suggestion, new tires. I took the van to a tire store and they quoted me \$2400.00 to replace the tires and I thought I was going to die on the spot. I thought they were out of line when they said I had special PAX tires, so I left the store and was told the same at another. What is this PAX thing and who would ever be willing to pay so much for minivan tires? Can I get rid of them and install regular tires?

Fred in McCook Nebraska

Dear Fred,

Surprise! It feels like they should yell this when you go to get these replaced. Yes they're expensive but they are very different from other tires and that's why they are. These tires were installed on some 05-09 Honda Odyssey, 06-08 Nissan Quest, 06-08 Acura RL, and 05-09 Toyota Sienna vans and some others. The tire is a run flat design allowing you to travel with no air for a limited time. They require special equipment to repair or replace and not every tire store has the equipment. To change to a regular tire requires changing the wheel as well making it very expensive. Either way it will be a jolt to the wallet. Check the internet for more information and options on these tires.

Take care, The Motor Medics

Dear Motor Medics,

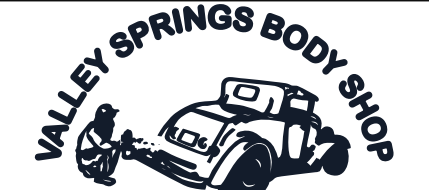

I have a very bad smell when I turn on the blower in my car. It smells like a dirty refrigerator. I must run the system for a few minutes with the windows down before I can stand to sit in the car. This started last year and has progressively become worse. It does not matter if it is set to heat or Air Conditioning. What could this be and how can I get rid of the smell?

Terry in Enid Oklahoma

Dear Terry,

he smell you have is likely exactly what you are describing, the smell of a dirty refrigerator. As you drive with the A/C on water forms on the evaporator inside of the air box and when it is saturated runs out of the box through a tube. You can see this water condensation running on the ground if everything is working correctly. If you don't have wet carpet you need to have the tube cleaned. When you shut the vehicle off the water can start to mildew like a refrigerator and start to smell. Some vehicles get so bad that they need to be cleaned professionally with a system that introduces an antibacterial cleaner into the intake of the system to clean it up. Check with your local shop to see if they can check the system for proper drainage and if they recommend performing this service to take care of the smell issue you have.

BRANDON VALLEY Journal

South Dakota native Mitchell Olson was in Brandon last week talking with students at the middle school about his career as an influencer and his experience on season 2 of *Survivor*.

The *Journal* also has another installment of our “Fathers & Sons” series, putting the spotlight on the Reiter family.

We’ve got a whole lot of city news to report, from Monday night’s lottery drawing of medical cannabis licenses to progress on the water tower, what’s in store for phase 2 of the core area reconstruction and a look at last year’s police report numbers.

There are also reports from the Valley Springs City Commission and Brandon Valley Board of Education meetings, and we’ll introduce you to the new city finance officer at Valley Springs as well.

Curious about what city government positions are up for election this year? The *Journal* gives you the details of the vacancies and when the filing period opens.

This week’s *Journal* also introduces you to District 2 House of Representative candidate Jake Schoenbeck.

Although Friday’s snowstorm canceled out a girl-boy basketball doubleheader in Brandon, both teams hosted Douglas Saturday evening and racked up lopsided victories in both games.

January sobriety checkpoints

A new year means another year of sobriety checkpoints held in South Dakota as a way to discourage people from drinking and then driving.

The monthly checkpoints are funded by the South Dakota Office of Highway Safety and conducted by the

South Dakota Highway Patrol with the help of local law enforcement.

There are 15 sobriety checkpoints planned in different counties statewide during January. The counties are: Beadle, Brookings, Brown, Butte, Charles Mix, Codington, Davison, Jackson, Lawrence, Meade, Minnehaha, Pennington, Spink, Walworth and Yankton.

Officials remind drivers not to drink and drive regardless of whether there is a checkpoint planned in their county. People who have been drinking are urged to designate a sober driver or take an alternate form of commercial or public transportation.
