City of Brandon Residents
FLUSHING NOTICE

The City of Brandon will be flushing
water mains from Monday, May 6th
through early June, 2024 or until
flushing is complete.

Flushing hydrants is needed to ensure they
are in proper working condition for fire
protection and to remove any mineral
deposits that may have accumulated
in the water mains.

Residents should be advised that the
change in water flow patterns resulting from
hydrant flushing may stir up mineral deposits in home services.

During hydrant flushing, it is not uncommon for residents to
periodically experience discolored water, pressure change,
and/or an increased chlorine odor. Homeowners are advised
to exercise care in their laundry operations and to check the
water for clarity before use.

Motorists also are advised to stay clear of the streams of water
coming from the hydrants.

Brandon Area Briefs

Exit 406 eastbound off-ramp closed for utility work

Beginning Tuesday, May 7, the Interstate 90 eastbound off-ramp at exit 406 (Brandon) will be closed between 9 a.m. and 3 p.m. The off-ramp closure is necessary for Xcel Energy to perform transmission line work. This work is anticipated to last up to five days. Traffic on S.D. Highway 11 over the Interstate or exiting east to I-90 will also be stopped periodically with the use of flaggers. Motorists should be prepared for delays and are encouraged to use alternate routes. A detour will also be in place utilizing exit 410 by directing motorists back to exit 406 in the west-bound lanes. Drivers are asked to be aware of workers adjacent to the driving lanes and to slow down through the work zone. To stay abreast of the project, visit dot.sd.gov/i90-exit406-brandon-pen-4433

FNB host site of May 10 blood drive

Community Blood Bank and First National Bank of Brandon, 101 S. Splitrock Blvd., will host a community blood drive from 8-11 a.m. and noon-2 p.m. Friday, May 10. Donors can schedule a donation time by logging onto cblifeblood.org/events and select May 10. Additional information can be found by call us at (605) 331-3222. Those donating blood will receive a \$10 D.Q. gift card as a thank you gift. All blood donations will stay local for local use with all blood types in immediate need.

Donors must be at least 17 years old (16 years old with a signed parent consent form), weigh 110 pounds or more and be in good general health. It is recommended that a person eat and drink plenty of fluids prior to donating blood. An ID is required at the time of donation.

Joah's Ark Petting Zoo

Joah's Ark Petting Zoo returns to Brandon on May 11 and 12. The petting zoo will be open from 2-6 p.m. on May 11 and 1-5 p.m. on May 12 at 48258 265th St.

Help Stamp Out Hunger on May 11

The National Association of Letter Carriers will Help Stamp Out Hunger on Saturday, May 11. Carriers will pick up donations of non-perishable food items that are placed near your mailbox. Donations will stay in the community.

Register for MCAP summer kids camp

Registrations for the Mighty Corson Art Players summer kids camp are now being accepted. The camp, set for June 10-14, will take place at the Corson Playhouse. Throughout the week, campers will rehearse an original story, “A Night in the Woods,” written by local playwright H.E. Dunkle. This fairytale-esque story follows Amber, a young girl lost in the magical woods full of talking animals as an even wizard schemes to trap her in the forest forever. Discover the secret of this enchanted realm as Amber and her new friends challenge Horace the Heartless and escape from his curse.

The camp culminates with a production of “A Night in the

Ask the Motor Medics®

Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I have a 2011 Honda CR-V that has a internal noise. The noise would come and go and usually after a oil change I would not hear it for a week or so. The noise occurs at the first start up of the day and the colder it is outside, and the longer it has been turned off, the louder and longer the noise will be. A couple shops have told me that they think the engine is going out, but another says its just timing chains and can be fixed. This car only has 90k miles on it, should I fix the chains or replace the engine.

Jeff in Fergus Falls Minnesota.

Dear Jeff,

A timing chain noise is a common occurrence on many vehicles. Most of these had timing belts in the past which were silent but had to be changed at regular intervals. Chains, while made to last the lifetime of an engine, will fail if the engine oil is not changed often enough or if it is a lower quality oil. Sometimes they will fail even when that is done. Something to keep in mind, more than just the chains need attention. In our shop we inspect and replace, if needed, the chains, tensioners, sprockets, and the camshaft phasers. All these can wear and can lead to noise. If a part is missed the noise will still occur leading to a disappointing repair. Get details from your shop

Take care, the Motor Medics.

Dear Motor Medics,

I have a 2019 Dodge Caravan and the horn and cruise have both stopped working. About the same time that the horn and cruise quit, the air bag warning lamp started staying on continuously instead of shutting off after a few seconds. The cruise did start to work for about a day but quit again. What could cause my van to have all these electrical gremlins at once and do you think it will spread to other areas? This van only has 55k miles on it and my extended warranty does not cover electrical issues.

Thank you, Julian in Springfield Missouri.

Dear Julian,

We have seen this before. All vehicles made that have any electronics in the steering wheel such as cruise, air bag, radio controls, etc. all have what is called a clock spring or sliding contact spring. This device houses a ribbon cable which wraps up when turned in one direction and unwraps when turned in the other. This allows the electric wires to make a continuing connection to the electrical devices in the wheel to the components of the vehicle. As time goes by, the cable can bend so many times that it breaks just like a coat hanger that is bent too much. Once the cable breaks it must be replaced which requires removing the steering wheel. A shop has to do this, but it is usually not an extremely costly job. Ask for a quote before repairs.

Take care, the Motor Medics.
