Brandon Area Briefs

Valley Springs Pet Clinic is tonight

The annual Pet Clinic is set for 5:30-7:30 p.m. Wednesday, July 12 at the Valley Springs Maintenance Building, 308 Broadway Ave.

Rabies and other shots will be available, along with city pet licenses.

Rock Veterinary Clinic will administer the shots.

City ordinance requires that every dog, cat and other domestic animals be immunized against rabies as well as registered annually to ensure health and safety for all.

OdeCo to celebrate 10 years

OdeCo will be celebrating its 10th year in business from 5:30-7 p.m. Wednesday, July 12 at their new headquarters, 1606 W. Holly Blvd. The Wagoo food truck will be on site and there will be inflatables for the kids.

BVACC Golf ParTee is July 14

Team registrations are being accepted for the Brandon Valley Area Chamber of Commerce's annual Golf ParTee on Friday, July 14 at the Brandon Golf Course.

To learn more or register, visit brandonvalleychamber.com.

Current needs at the Brandon Food Pantry

Current needs at the Brandon Food Pantry are bottled juices, Jello and pudding, canned soups (tomato, bean, vegetable beef, chicken gumbo, etc.), canned chicken, mustard and ketchup, toothpaste.

To make appointments for pickups or donations, call 582-7001. The BAFP is open from 4-6 p.m. Tuesdays and Thursdays.

BAFP executive director Linda Weber asks groups that conduct food drives to contact the Pantry prior to dropping off donations.

Used eye glasses and hearing aids for the Brandon Lions Club may also be dropped off at the BAFP.

Battle of the Badges Blood Drive

Appointments are being scheduled for the Battle of the Badges Blood Drive from 9 a.m.-3 p.m. Friday, July 21 in the parking lot outside the Brandon Valley Area Chamber of Commerce. Individuals are asked to donate blood on behalf of the Brandon Fire Department, Brandon Police Department or MED-Star Paramedic Service.

To learn more, contact the BVACC at (605) 582-7400.

VS Legion BBQ fundraiser is Aug. 11

Valley Springs American Legion will be serving up its BBQ fundraiser from 5-7 p.m. Friday, Aug. 11. This month's BBQ is being held one week earlier than usual. Grilled hot dogs and hamburgers, barbeques, calico beans, chips, coleslaw, and drinks are on the menu.

Ask the Motor Medics®
Automotive Advice from The Under the Hood® Show

Dear Motor Medics,

I used the remote start on my 2004 Chevy Silverado to warm it up the other morning and came out to find my interior filled with smoke. I did not see smoke coming out of any area, so I aired it out and drove to work. I have checked all the electrical functions and the only thing I find that does not work is the heater fan high speed. Could this be what was smoking?

Steven in Kalamazoo Michigan

Dear Steven,

The interior HVAC blower fan system could have been the source of the smoke. Blower resistor failures are common as vehicles age. The blower windings break down over time and the resistance on the circuit increases, this extra resistance causes the resistor to run much hotter than it should. Eventually the resistor can fail and sometimes it will let off smoke. In addition to the resistor failing some vehicles have issues with the wires that attach to the resistor and the connector plug melting. In the case of the Silverado, it is a common issue and some of them were subject to a recall so check with your local dealership for more information. Most important of all to remember is to stop driving a vehicle when you see or smell smoke. Fire spreads quickly in a vehicle and you can be overcome by the fumes of the many materials used in its construction. Always think about your safety first.

Take care, the Motor Medics

Dear Motor Medics,

I have a 2007 Chevy Impala with several issues that all occurred about the same time. I have a check engine light on, I have poor cabin heat, and my fuel mileage is not as good as it used to be. What kind of things should I be looking for?

Diane in Wray Colorado

Dear Diane,

It is possible that just one thing is causing all your problems and that item is small and relatively inexpensive, your engines thermostat. The thermostat is responsible for keeping the engine temperature at a steady level so that you have proper heat available for the interior and proper operating temperature for the engine to operate efficiently. When a thermostat does not allow the engine to warm to a certain level on OBDII vehicles the computer responds by turning on the check engine light. Another effect of low temps is a decrease in fuel mileage due to continued fuel mixture enrichment. In the past, our vehicles used carburetors with chokes on them to enrich the fuel mixture for proper running until the engine was warm. Around the early eighties this changed to electronic fuel injection and is now controlled by the engine computer. If the thermostat does not regulate the engine temperature properly the computer may continue to enrich the fuel mixture causing the vehicle to have poor mileage. Thermostats should be serviced when the coolant is flushed or when they fail to operate as designed.

Take care, the Motor Medics

FOR ENTERTAINMENT ONLY
